I would like to add my voice to those that think that the proposed Microsoft settlement is unacceptable.

Please do not approve the currently proposed settlement. Microsoft has grievously injured the software and computer industries and should not be allowed to continue unchecked. Supplying more of the software that has been used to subvert the industry to the parties that are objecting to that subversion is not the right answer and will not repair any damages, but in fact acerbate the problem.

Sincerely, a concerned US citizen,
